Transition Planning

As per Policy/Program Memorandum (PPM) No. 156 (2013), a transition plan must be developed for all students who have an Individual Education Plan (IEP), whether or not they have been identified as exceptional by an Identification, Placement, and Review Committee (IPRC), including those identified as exceptional solely on the basis of giftedness. The transition plan is developed as part of the IEP. The transition plan must be developed in consultation with the parent(s)/guardian(s), the student (as appropriate), the postsecondary institution (where appropriate), and relevant community agencies and/or partners, as necessary.

For students who have an IEP, the transition plan must be reviewed as part of the review of the IEP. The discussions and planning that take place as part of the review will be used to update the transition plan.

Why Plan for Transitions?

At the Kawartha Pine Ridge District School Board, we recognize that in the school environment, transitions happen at various stages and with varying frequency for students. Some transitions occur on a regular basis between activities and settings within the routines of the school day. Other transitions, such as class excursions, occur less frequently. Significant transitions such as entry to school, between grades and divisions, from elementary to secondary school, and from secondary school to the post-secondary destination happen periodically, are more complex, and include significant changes to many aspects of a student's routines.

Planning for transitions provides the foundation for successful transition experiences that help a student learn to cope with change, develop skills, and adapt to a variety of settings. Transitions cannot be avoided but helping a student to be prepared for and adjust to change and transition can help to reduce or avoid some of the anxiety and resultant behaviours that they may cause.

Transition planning should begin well in advance of the expected change for the student. The planning can be complex and requires communication and coordination between those who will be involved in the transition process. Effective planning for significant transitions usually includes parent(s)/guardian(s) and staff from the school, school board, and community agencies or institutions who are and who will be involved with the student.

Parent(s)/Guardian(s) should be involved in the sharing of information, collaboration, planning, and process that may be required to ease or facilitate significant transitions for a student. Parent(s)/Guardian(s) can help to identify changes to routines or settings that may be difficult for the student.

The Special Education Services Department prepared an info-graphic for schools to guide them in successful transition planning for students. It can be used in effective IEP writing, and in case conferences with parent(s)/guardian(s).
