

Who We Are:

- We are regulated health professionals licensed to practice in Ontario
- We have education and expertise in typical development and disorders of communication
- We have extensive training and experience with the assessment of and intervention for all communication concerns
- We are committed to learning from new research and completing continuing education each year

What We Do:

- We support students, school staff, multidisciplinary teams and parents
- We offer assessment, consultation, coaching, support visits, collaboration with other professionals and outside agencies, advice, education, and resources.
- We offer support in the following areas:
 - Receptive language (e.g. visuals, vocabulary, following directions, understanding stories etc.)
 - Expressive language (e.g. word retrieval, sentence formulation, grammar, story telling etc.)
 - Speech (articulation) and clarification
 - Stuttering assessment and if warranted, a referral to an external agency
 - Voice assessment and if warranted, a referral to an external agency
 - Pre-literacy skills and literacy (e.g. early literacy skills, phonics, decoding, reading comprehension, reading fluency, spelling, writing etc.)
 - Augmentative and alternative communication (e.g. speech generating devices, core vocabulary boards etc.)
 - Early language facilitation (promoting language development)
 - Social Communication (e.g. conversational skills, understanding social/emotional cues, turn-taking, understanding nonliteral language etc.)
 - AND MORE!
